In re Application of :
ARAI et al. :
Serial No.10/589,803 : DECISION ON PETITION
Filed: August 17, 2006 :
For: SHEATH REMOVAL HOLE CLOSING :
DEVICE USING LASER WELDING SCHEME :
 :
 :

This is a decision to petitioner's request to permit color photographs filed August 17, 2006.

Under 37 CFR 1.84(a)(2), the petitioner must file (i) the fee set forth in 37 CFR 1.17(h), (ii) three (3) sets of color photographs and (iii) an amendment to the specification, if necessary. Petitioner has satisfied the requirements of (i) through (iii) above.

The use of color photographs is provided in MPEP 608.02 with reference to color drawings as part of 37 CFR 1.84(a)(2), the rule states "on rare occasions, color drawings may be necessary as the **only** practical medium by which to disclose the subject matter to be sought to be patented in a utility ...application."

The Office believes that color photographs are not the only medium by which the subject matter to be patented can be disclosed. The photographs do not relate to the method steps, only the results.

The petition is denied.
